

Matrix

The GNU Radio Project maintains a [Matrix homeserver](https://matrix.org/) where the community can have discussions and conversations. This is a great way to chat in real-time with people from Ettus Research as well as with people in the GNU Radio community. The GNU Radio Matrix homeserver has a two-way mirror with the GNU Radio [#gnuradio](https://www.gnu.org/irc/) IRC channel. Matrix is an open network for secure, decentralized communication that is free and open to everyone. You can use Matrix from a desktop application, from a web browser such as Firefox, Chrome, Safari, or Edge, and also from your Android and Apple iOS smartphone.
